

## Honor Your Father On His Special Day

Father’s Day started with a dedicated woman: Sonora Smart Dodd, the daughter of a widowed Civil War veteran who had raised her on her own. Dodd came up with the idea for a special day celebrating fathers when listening to a Mother’s Day sermon in 1909. She held her own special tribute for her father on June 19, 1910, in Spokane, Wash., and began a campaign for an official celebration thereafter.

The idea of Father’s Day initially met with some skepticism, but in 1919, President Calvin Coolidge expressed support for the holiday, and in 1926 a National Father’s Day Committee was formed in New York City. In 1966 President Lyndon B. Johnson signed a proclamation designating the third Sunday in June as Father’s Day, but it wasn’t until 1972 that President Richard Nixon officially recognized it as a national holiday.

## Visiting Colleges This Summer

If you’ve got a child heading off to college in a year or two, summer is the perfect time to start checking out campuses. Prepare for your visits with this advice: Develop a list of questions that your student will be responsible for asking during the tour. Make sure he or she asks the same questions at each school you visit so that you can compare answers. Here are some suggested questions:

- ♥ How does the admissions process work?
- ♥ What kind of financial aid is available?
- ♥ What kinds of support are offered to students?
- ♥ What are the benefits of attending this school?
- ♥ What is on-campus living like?

Set goals for each school visit. While you’re on campus, pick up a school newspaper and read it when you get home. It will give you the flavor of the school atmosphere. Have your student ask tour guides what they like and dislike about the school.

## Come Join The Beach Fun!!!

Autotronics will be celebrating Summer by having a beach theme in the month of June.

There will be a pig roast, dancing Luau girls, and a midnight cruise.....NOT....LOL.

But we WILL have lots of spirit, fun games, Tiki punch and prizes. So dance, swim or crawl on over.

## Would You Hire These People?

Composing a job-winning résumé is important to career success. Unfortunately, some jobseekers seem to have a lot to learn, judging from these résumé errors collected on the JobMob website:

- ✓ "Career break in 1999 to renovate my horse."
- ✓ "Skills: Strong Work Ethic, Attention to Detail, Team Player, Self Motivated, Attention to Detail."
- ✓ Achievements: "Nominated for prom queen."
- ✓ Additional skills: "Can function without additional oxygen at 24,000 feet."
- ✓ Objective: "Career on the Information Super Highway."
- ✓ "Able to say the ABCs backward in under five seconds."
- ✓ Personal interests: "Donating blood. Fourteen gallons so far."

## Thanks For The Kind Words

"I like how when I bring my car in for something, your mechanics take the time to notice and check other potential issues. I feel like the car is really 100% ready when I pick it up. Thank you - Robert Schroeder

## Happy Father's Day Dad

Wondering what to say to your kid? One of these classic lines is sure to fit:

- Don't you know any normal boys?
- A little dirt never hurt anyone.
- Who said life was fair?
- You call that a haircut?
- Do you think I'm made of money?
- Because I said so, that's why.
- Were you born in a barn? Close that door.

## Once Word Get Out....

A florist went to the barber for a haircut. When the barber was finished, he turned down any payment. "I'm dedicating this week to community service, so I'm not charging for haircuts."

Grateful, the florist went back to his shop and sent a basket of flowers to the barbershop.

The next day a baker walked in. He got a haircut, and again the barber refused payment, explaining his community service commitment. The baker responded by sending the shop a box of one dozen fresh doughnuts.

A day after that, a Congressman came in for a haircut. He tried to pay from his expense account, but the barber repeated his promise.

The next day 10 Congressmen lined up outside the door for free haircuts.

## Keep Kids Safe From Bugs

As summer comes, so do the bugs. And some of those bugs can bite. Follow these guidelines from the American Academy of Pediatrics to protect your children from getting stung or bitten:

- Avoid using scented soaps, hair sprays, and perfumes on your child. The scents can draw insects and bugs and increase your child's risk of being bitten.
- Stay away from nests or places bugs might congregate. This includes stagnant pools of water, areas where uncovered foods are abundant, and gardens where flowers are blooming.
- Don't dress your child in brightly colored clothing or flowery prints. They can draw insects to the child.
- Insect repellents containing DEET are the most effective. However, DEET should not be used on children under 2 months old. The benefits of DEET are best when it is at a 30 percent concentration —the maximum concentration recommended for infants older than 2 months.

### Take A Kid Fishing

Reeling in a kid's first catch can be the spark that ignites a lifetime interest in fishing.

To increase the likelihood of it happening, plan to go where fish are plentiful. A city park, a pay-per-catch pond, or a heavily stocked lake are good choices.

Remember that fish like to swim in sandbars, deep edges, weed beds, and sunken islands. They also like artificial structures such as docks, piers, and fallen trees.

### Eat Better To Spur Creativity

Some great artists and writers are known to have used drugs or alcohol to seek inspiration, but you don't have to risk your health when you need a creative boost. The Medical Daily website suggests trying some of these foods to help stimulate the brain:

-Fruit. Fruits have lots of an amino acid called tyrosine, which helps synthesize proteins and may influence your ability to think deeply. In one study, students performed better at completing puzzles when they drank orange juice strong with tyrosine.

-Chocolate. The flavanols in chocolate may enhance short-term cognitive skills because flavanols boost the amount of oxygen in the brain. Try a cup of hot cocoa before you need to be at the top of your mental game.

-Carbohydrates. Carbs deliver a quick dose of glucose to your body and brain, providing aid to concentration and memory. Potatoes, oatmeal, and other carbs may have a beneficial effect on brain function.

-Walnuts. Rich in omega-3 fatty acids, walnuts can help memory and increase brain function. The results of one study showed that rats given a diet of raw walnuts for 28 days showed better learning and memory than rodents on another diet.
